OR040F

100% Polyester Knitted Softshell Outer Layer
Bonded Microfleece Inner Layer

315g/m^[sup2]

Pack 1
Carton 12

Marketing description (short)

Russell's Smart Softshells are smart looking, bonded 2-layer softshells - softshells WITHOUT a membrane, providing a higher degree of breathability.

Marketing description (long)

[Protection from the chill and the wind] Our smart softshells give you the comfort and breathability of a fleece with the chill protection and smart appearance of traditional softshell. A Teflon-branded water repellent finish even provides protection against drizzle and a wipe-clean finish. With their high level of breathability, our 2-layer SmartShells keep the wearer warm when they're not moving, and dry when they're physically active. They're perfect for anyone who works indoors or in semi-sheltered areas - where they offer protection against wind and chill.

Decorator

Suitable for all standard decoration methods.
