	Pack 1 Carton 12

Marketing description (short)	This is the softshell jacket that has set the standard in the market - highly water resistant and windproof, versatile and good looking - it performs at every level.
Marketing description (long)	[Benchmark jacket] Our outdoor softshell jackets are built in three layers. The outer layer is a smooth, woven softshell fabric that gives protection from the elements and is great for decoration. Next to the skin there's a cosy microfleece layer for comfort and warmth. In between is the internal layer where the real high-tech stuff happens. It's a membrane that lets moisture out but no rain in, for protection and comfort.
Decorator	Large left chest side decoration access. This is one of the most successful softshell jackets on the market, tried and tested many, many times.
